¹ Because the sense of rhythm varies in individuals, the exercises in Parts IIa and IIb may be studied independently, without keeping pace with the parallel exercises for the left hand. In this case the omission of these exercises in bowing must be made up in the following Parts.

² It is of great importance for the beginner to play frequently with piano accompaniment. The difference in tone-color between the violin and the piano, the harmonic structure of the music, the fine nuances in the piano-part, all tend to guide, even urge, the beginner toward pure intonation, proper crescendos and decrescendos, and correct accentuation. Thus he is almost compelled to produce a more beautiful tone and to render the music with taste. For these reasons he may study, even at an early stage, in connection with Parts II-IV correspondingly easy pieces with piano accompaniment.

³ To be studied concurrently with Parts VIa, VIb, VIc and VII.

⁴ To be studied concurrently with Parts VIII, IX, X and XI.

¹ Da die rhythmischen Anlagen nicht bei jedermann die gleichen sind, können die rhythmischen Uebungen aus Abt. IIa und IIb selbständig vorgenommen werden, ohne mit den gleichlaufenden Uebungen für die linke Hand gleichen Schritt zu halten. In diesem Falle jedoch sind diese Bogenübungen bei den folgenden Abteilungen nachzuholen.

² Häufiges Spielen mit Klavier ist für den Anfänger von grösster Wichtigkeit. Die Klangverschiedenheit zwischen Geige und Klavier, die vollen Harmonien des Stückes, die feine Nuancierung in der begleitenden Klavierstimme leiten und drängen den Anfänger zum reinen Intonieren, zum Anschwellen und Abschwächen, zum Akzentuieren der Töne. Er wird geradezu gezwungen den Ton schön zu bilden und das Musikstück geschmackvoll vorzutragen. Deshalb kann man schon neben Abt. II-IV entsprechend leichtere kleine Stücke mit Klavier vornehmen.

³ Neben Abt. VIa, VIb, VIc und VII vorzunehmen.

⁴ Neben Abt. VIII, IX, X und XI vorzunehmen.

¹ Le sens du rythme n'étant pas le même chez tous les individus, il est possible d'étudier les exercices rythmiques des Parties IIa et IIb indépendamment, sans égard aux exercices parallèles pour la main gauche. Dans ce cas il faut compléter plus tard ces exercices d'archet pendant l'étude des parties suivantes.

² Pour le commençant il est de la plus grande importance de jouer souvent avec accompagnement de piano. Le timbre différent du violon et du piano, les accords pleins de la composition les nuances de l'accompagnement, tout cela conduit, et même entraîne l'élève à une intonation juste, à faire les crescendi et decrescendi, à observer l'accentuation des notes. Tous ces détails le forcent à cultiver une belle sonorité et à interpréter les œuvres avec goût. Pour cela il peut déjà commencer l'étude de pièces faciles avec piano conjointement aux exercices des Parties II-IV.

³ À étudier conjointement aux Parties VIa, VIb, VIc, VII.

⁴ À étudier conjointement aux Parties VIII, IX, X, XI.
